

## Performance Intermediates News

### Performance Intermediates at APIC 2017

The 2017 Asia Petrochemical Industry Conference (APIC) will take place from May 17 - 19 in Sapporo (Japan). We, the Evonik Business Line Performance Intermediates, will also be present at this important industry conference. As a producer of the two oxo-alcohols isononanol (INA) and 2-propylheptanol (2-PH), we at Performance Intermediates, are a partner to a large number of Asian companies in the plastics industry.

To coincide with the APIC, we will be inviting selected customers to an event at Ristorante Il Centro Hiramatsu to mark the 50th anniversary of our OXO plant at the Marl site. "We are delighted to have the opportunity to meet and talk with our longstanding customers and to further strengthen existing business relationships," says Roland Pietz, head of Evonik's Oxo Alcohols market segment.
