PI'S SUSTAINABILITY CRITERIA

DECARBONIZATION
Avoid/reduce carbon

DEFOSSILATION
Reduce/replace fossil sources

CIRCULARITY
Avoid/reduce waste

Reduced Footprint "RFP"	Exchange of feedstocks/ Energy efficiency	Carbon footprint reduced raw materials	●		
Bio "B"	1st gen feedstocks	Vegetable oils (e. g. rapeseed, sunflower)	●	●	
Bio-Circular "BC"	2nd gen waste and residues	Residues from forestry, agriculture and food (e. g. used cooking oils)	●	●	●
Circular "C"	Pre- and post-consumer goods	End of life tires, mixed plastic waste	●	●	●

This information and all further technical advice are based on our present knowledge and experience. However, it implies no liability or other legal responsibility on our part, including with regard to existing third party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied, or guarantee of product properties in the legal sense is intended or implied. We reserve the right to make any changes according to technological progress or further developments. The customer is not released from the obligation to conduct careful inspection and testing of incoming goods. Performance of the product described herein should be verified by testing, which should be carried out only by qualified experts in the sole responsibility of a customer. Reference to trade names used by other companies is neither a recommendation, nor does it imply that similar products could not be used.
